Budda Superdrive Series II 1 x 12" Combo 30-watt Guitar Amp at a Glance:World-famous Superdrive Series II amplifier Two channels give you a mad range of tones The Superdrive Series II amplifier line is handcrafted in the U.S. and is the new voice of rock! These amps have shaped the sound of many of today's platinum rock records. From artists like the Foo Fighters, Buckcherry, Good Charlotte, Stone Sour, Robert Randolph, The Exies, and Matchbox 20, the Superdrive 30 delivers a unique tone that's both powerful and bold. Two channels give you a mad range of tones:The rhythm channel packs plenty of punch and dynamics, just like Budda's famous Twinmaster circuit. The flex of the EL84 and 5U4 rectifier tubes offers an elasticity to your tone that is pure organic soul! The high-gain channel offers plenty of variation from creamy blues tones to full on hyperdrive crunch. The master doesn't choke the amp, so you get plenty of touch sensitive sustain at low-volume settings. You can dial in just the right amount of gain and volume for late night studio work and small club venues. Built with the finest components to withstand the abuse of constant road work; the Budda Superdrive 30 is the working musicians choice!Features:• 16-ohm switch • 30-watt
