Product Description: Here we have the amazing H9 Max by Eventide. It is a true killer of a pedal with numerous fantastic demos and glorious reviews on the web. The Eventide H9 MAX multi effects pedal comes preloaded with all the algorithms and associated presets from the Eventide stompboxes. Eventide H9 MAX Multi FX Pedal Main Features: • True analogue bypass • Real-time MIDI control (via DIN and USB) • Fast accurate tuner included • Expression pedal and AUX footswitch input • Sync to the beat with tap tempo or MIDI • All the algorithms and associated presets from the Eventide stompboxes • Free H9 Control app for preset editing and management The award-winning H9 MAX delivers Eventide's acclaimed sound and can run all of Eventide's stompbox effects. The H9 MAX multi effects guitar pedal features a simple, one-knob user interface which allows easy effect editing and preset selection. Two onboard footswitches let you change presets, tap tempo, and bypass with your feet during live performance. The H9 MAX ships with 9 algorithms and 99 presets from the Eventide stompboxes but you can purchase additional algorithms from Eventide via the H9 Control app. Additional Features: • TimeFactor: 9 Delay effects + Looper • ModFactor: 10 Modulation effects • PitchFactor: 10 Pitch + Delay effects • Space: 12 Reverb and Beyond effects • UltraTap, Resonator, EQ Compressor and future exclusives The H9 MAX also includes all future algorithms created for the platform at no additional charge. H9 Control: While the H9 stompbox is fully controllable via its front panel, a free editor/librarian, H9 Control, can be downloaded to your Mac, PC, or iOS device. H9 Control is the ultimate tool for optimising your experience with all the Eventide stompboxes. Use it to manage preset lists, update firmware, configure an auxiliary switch, listen to demos without hardware, backup your settings and more. H9 Control not only gives you incredible control over parameters and settings, but it encourages you to explore new sonic territory. Fold, spindle and even mutilate your sound and experience what it's like to be inspired by your gear. The H9 MAX stompbox/effects pedal by Eventide provides easy effect editing and preset selection to any Guitarist of all abilities with its simple, one-knob user interface which connects via bluetooth to iOS devices to wirelessly create and manage presets. The H9 MAX features 45 algorithms and 99 factory presets from Space, Timefactor, Pitchfactor and Modfactor which are all ready for you to use. If that isn't enough then you can add even more presets and effects through the H9 control app which is accessible from an iOS device, Mac or PC via USB. H9 Control runs wirelessly via Bluetooth on Windows, Mac and iOS devices and is available for free. Please view the
