

## Line 6 BackTrack + Mic Guitar Riff Recorder - Instant Replay for Guitar

Model : -

Manufacturer : -

Here we have a forever handy Line 6 BackTrack Mic, new in box with all original documentation. Grab yourself a bargain! Here's a bit of blurb from Line 6 to wet your whistle; Typical flash, MP3 and cassette recorders can be complicated, expensive and unreliable when put to the test. They offer low-quality sound and no intuitive way to keep recordings organized. Designed for guitarists by guitarists, BackTrack solves each one of these historic problems. A super-quiet 1/4-inch input, a 1/4-inch output for immediate playback, a "Mark" button to organize your best ideas on-the-fly, a "Play" button for instant replay, better-than-CD-quality audio, a rugged flash memory, lightning-fast USB 2.0 for importing audio to your DAW while the internal battery recharges... flash recorders wish they could be BackTrack. Best of all, BackTrack is so easy to use that it doesn't even have a record button. It's always on, and always listening, because you can't plan for inspiration. When great ideas strike at rehearsal, in the car or while you're sleeping, BackTrack is armed and ready. What good is a recording device if it's not ready when you are? What's under the hood BackTrack + Mic provides an intuitive set of features crucial for capturing all your revelations, epiphanies and great musical ideas. • Up to stunning 24-bit, 48 kHz audio • Up to 12 hours of audio capture • 1/4-inch guitar input • 1/4-inch output • Drag .WAV files to your computer via USB 2.0 • Rechargeable via USB • Over 8 hours of battery life • Looped playback

**Inspiration** At home, BackTrack offers the best ways to capture and organize all your musical ideas. • Like a creative safety net, BackTrack makes sure all your ideas are captured • "Instant replay" anything you just played by pressing "Play"; • Separate your best ideas from the rest by pressing "Mark";

**In the studio**, BackTrack gives you a head-start turning your inspirations into complete songs. • Drag the better-than-CD-quality .WAV files right into your recording software • The clean and pristine audio offers total plug-in processing flexibility • Packed with your ideas, BackTrack is your portable idea vault

**At soundcheck**, BackTrack redefines the entire experience. • Adjust your tone hands-free while BackTrack loops a song or riff • Walk around the venue and check your tone while BackTrack does the playing for you • Capture the energy of your live show and drag the high-quality audio to your DAW

**At rehearsal**, there's no end to what BackTrack can do for you and your band. • BackTrack + Mic records your whole band with stunning clarity • Capture a direct signal perfect for dragging to your DAW by putting BackTrack in-line between
