

Red Llama Clone Guitar Effect Pedal - Very Good Condition. From Overdrive to Huge Fuzz

Model : -

Manufacturer : -

Here's a great sounding overdrive that can be pushed into a fuzz-type sound. It's simple but very huge sounding! It's closely based on the Way Huge Red Llama and sounds like the original one. I've got to say that this pedal LOVES single coils and make miracles with them and also sounds great with humbuckers.

Features:

- Boutique style overdrive with a small Tweed Amp style tone
- Transparent and responsive to playing dynamics
- Simple two knob operation: Volume and Drive
- Aggressive "Fat One" style output volume-great for slamming an amp's input
- CMOS circuit for tube-like tone and dynamics
- Handwiring
- True Bypass
- 9v power (no battery)
- Bright white LED
